# ABOUT US

**De Mase** is a full-service trucking, warehousing, rigging and ocean container transloading company. We have over 50 years of experience, serving manufacturers, the freight forwarding industry, and third-party logistics companies.

Conveniently located minutes away from NY/NJ piers and airports, our facility is equipped with overhead cranes that can handle 10 – 75 tons and a variety of forklifts ranging from 2.5 – 25 ton capacity.

We have trailers capable of transporting heavy and over-dimensional freight, including multi-axle configurations, flatbeds, lowboys, and step-decks.

Our trucks and warehouse are US Customs Bonded, and we have CTPAT and TSA Certifications to serve the US and Canada.
